### SUMMARY

- Plan for right-arm pace: bowl **full pitching in the channel**.
- They get out most often to balls that are **good length and wide outside off** (2.1 dismissals/100).
- Most often out **caught behind** (43% of dismissals); most often to right fast (7).
- Vulnerable early — get at them hard in their first 30 balls.

### COMMON THEMES

- left-hand bat, averaging 66.6 at a strike rate of 59.7.
- Carries a big share of the batting — 17.6% of team runs.
- Scores mainly through the leg side (72%).

### STRENGTHS

- Main scoring shot is the drive (40% of runs).

### WEAKNESSES / HOW TO GET HIM

- Get them early** — they're 2.4× more likely to fall in their first 30 balls (1.4 vs 0.6 dismissals/100 once set; false shot 19% vs 23%). Early runs come mainly off the drive (45%).
- Most often out **caught behind** (43% of dismissals); most often to right fast (7).
- Struggles **in the channel** (26 avg, 2.3 outs/100).
- Most dangerous ball: **good length and wide outside off** (2.1 dismissals/100, avg 28).

### Start of Innings vs Set

**Get them early** — they're 2.4× more likely to fall in their first 30 balls (1.4 vs 0.6 dismissals/100 once set; false shot 19% vs 23%). Early runs come mainly off the drive (45%).

| Phase          | Average | Strike rate | False-shot % | Dismissals / 100 | Boundary % | Balls |
|----------------|---------|-------------|--------------|------------------|------------|-------|
| First 30 balls | 34.5    | 49          | 19%          | 1.42             | 5%         | 281   |
| Once set (31+) | 109.3   | 66          | 23%          | 0.60             | 9%         | 500   |

v Sri Lanka · 2 Tests · 495 balls · 326 runs · avg 108.7

They came round the wicket and stuck to a good length in the channel. 3 dismissals — 1 stumped, 1 LBW and 1 bowled, the wicket ball most often full, at the stumps.

| Ball                       | Them | Teammates |        |
|----------------------------|------|-----------|--------|
| Pitched at the stumps      | 9%   | 18%       | ▼ less |
| Cut ball (short, wide off) | 28%  | 36%       | ▼ less |
| Full at the stumps         | 6%   | 14%       | ▼ less |

v Australia · 1 Test · 94 balls · 25 runs · avg 12.5

They came round the wicket and pitched it up wide of off. 2 dismissals — 2 caught, playing the forward defence.

| Ball                  | Them | Teammates |        |
|-----------------------|------|-----------|--------|
| Round the wicket      | 34%  | 24%       | ▲ more |
| Pitched up            | 17%  | 7%        | ▲ more |
| A good length         | 62%  | 76%       | ▼ less |
| Pitched at the stumps | 18%  | 27%       | ▼ less |
| Pitched wide of off   | 17%  | 7%        | ▲ more |

v England · 1 Test · 103 balls · 65 runs · avg 65.0

Too few balls in this series to compare a plan.

Only the balls of each attack's pace plan that differed from what the same bowlers gave that side's other LHB top-order batters. The full dismissal detail sits in the vision playlists.

Our Best Options (simulated matchups)

From the match simulation — a tool that plays each batter-v-bowler pairing out thousands of times from their full Test profiles. Low expected average = the bowler wins the matchup. "Cohort" confidence = they have not faced enough of that type for a personal read.

| Bowler             | Type       | Exp avg | Exp SR | Out in first 30 % | Stock wicket ball              | Top dismissal       | Confidence |
|--------------------|------------|---------|--------|-------------------|--------------------------------|---------------------|------------|
| Fergus O'Neill     | Right pace | 24.9    | 43.1   | 36.8              | good length, 4th-stump channel | Caught behind 24.7% | Med        |
| Liam Hatcher       | Right pace | 28.1    | 55.9   | 41.2              | good length, 4th-stump channel | Caught behind 26.2% | Med        |
| Brendan Doggett    | Right pace | 28.3    | 57.6   | 41.5              | good length, 4th-stump channel | Caught behind 26.4% | Med        |
| Liam Scott         | Right pace | 28.6    | 36.4   | 29.6              | good length, 4th-stump channel | Caught behind 24.6% | Med        |
| Corey Rocchiccioli | Off-spin   | 29.4    | 55.9   | 43.4              | good length, outside off       | LBW 20.4%           | Med        |

Structurally, off-spin turning the ball away from the LHB is the matchup class that persists — favour that angle when the individual reads are thin.

## Where They're Vulnerable (right-arm pace)

Per bucket: batting average, strike rate, false-shot %, dismissals per 100 balls, boundary %. Pink row = their lowest-average (softest) bucket in that dimension.

| Length           |      |    |        |          |       |       |

DANGER BALL — WHERE THEY'RE MOST LIKELY OUT

▶ WATCH DANGER BALLS

Good length / wide outside off

2.1 dismissals per 100 · averages 28 here · 146 balls · false shot 27%

## How They Score & Get Out

Scores most of their runs through the leg side (72%; off 27% · leg 72% · straight 2%).

Shot types (risk) [▶ their cut](#)

| Shot       | Avg  | SR  | False% | Outs/100 | Bdry% | Balls |
|------------|------|-----|--------|----------|-------|-------|
| Cut        | 87.0 | 202 | 23%    | 2.33     | 37%   | 43    |
| Drive      | 53.3 | 148 | 18%    | 2.78     | 23%   | 108   |
| Work/Nudge | —    | 85  | 11%    | 0.00     | 5%    | 162   |

Where they score — runs by area vs right-arm pace (mirrored for a left-hander).

Most often out **caught behind** (43% of dismissals); most often to right fast (7).

[▶ watch dismissals](#)

| Dismissal mode      | Count | %   |
|---------------------|-------|-----|
| Caught behind       | 3     | 43% |
| Caught              | 2     | 29% |
| Caught in the field | 1     | 14% |
| Bowled              | 1     | 14% |

Suggested Fields (the stock field ± their evidenced deviations)

Each field starts from the **stock template** for that bowler type & phase (orthodox because it works), then makes at most **three** changes — each one earned by a trigger in **their** game clearing the cohort P75 bar (do they lap, cut, pull, score square, edge early?). **Change** rows are highlighted with their stat; **Stock** rows carry the orthodox line. The read line backtests the changes against the pure stock field. Early = first 30 balls; Set = once in. Drawn from behind the bowler (bowler bottom, striker top); off side is on the right.

Field vs right-arm pace

Early — first 30 balls · 281 balls

| Fielder        | Stock/Change | Why they're there        |
|----------------|--------------|--------------------------|
| 1st slip       | Stock        | Standard stock position. |
| 2nd slip       | Stock        | Standard stock position. |
| Gully          | Stock        | Standard stock position. |
| Backward point | Stock        | Standard stock position. |
| Cover          | Stock        | Standard stock position. |
| Mid-off        | Stock        | Standard stock position. |
| Mid-on         | Stock        | Standard stock position. |
| Fine leg       | Stock        | Standard stock position. |
| Third man      | Stock        | Standard stock position. |

**Pure stock field.** Nothing in their game clears the deviation bar (cohort P75) against right-arm pace, so the orthodox field stands — that is the read.

**Floating fielder:** They score only 3% of their runs where backward point stands — the spare run-saver to move as the game asks.

Once set · 500 balls

| Fielder        | Stock/Change | Why they're there        |
|----------------|--------------|--------------------------|
| 1st slip       | Stock        | Standard stock position. |
| Gully          | Stock        | Standard stock position. |
| Backward point | Stock        | Standard stock position. |
| Cover          | Stock        | Standard stock position. |
| Mid-off        | Stock        | Standard stock position. |
| Mid-on         | Stock        | Standard stock position. |
| Midwicket      | Stock        | Standard stock position. |
| Square leg     | Stock        | Standard stock position. |
| Fine leg       | Stock        | Standard stock position. |

**Pure leg-side stock field — Strong through the leg side (71% of their runs vs 16% off) — a squarer leg-side ring, one slip out..** Nothing in their game clears the deviation bar (cohort P75) against right-arm pace, so the orthodox field stands — that is the read.

**Floating fielder:** They score only 0% of their runs where mid-off stands — the spare run-saver to move as the game asks.

Bouncer plan

A standard bumper field — he isn't a heavy puller, so this is a holding / surprise option, not a wicket-taking plan. One slip, a catcher in front of square, and the two legal leg-side riders (deep backward square + deep fine leg).

| Fielder              | Stock/Change | Why they're there                                             |
|----------------------|--------------|---------------------------------------------------------------|
| 1st slip             | Change       | One slip kept for the top / outside edge.                     |
| Short leg            | Change       | Catcher in front of square for the fend or glove off the hip. |
| Gully                | Change       | The steer or fend that flies squarer of the wicket.           |
| Point                | Change       | Ring saver for the bumper plan.                               |
| Cover                | Change       | Ring saver for the bumper plan.                               |
| Mid-off              | Change       | Ring saver for the bumper plan.                               |
| Mid-on               | Change       | Ring saver for the bumper plan.                               |
| Deep backward square | Change       | Deep behind square for the top-edged pull.                    |
| Deep fine leg        | Change       | Deep behind square for the hook.                              |
