## SUMMARY

- Most often out **caught** (100% of dismissals); most often to right medium (1).

## COMMON THEMES

- right-hand bat, averaging 31.0 at a strike rate of 88.6.

## STRENGTHS

- Main scoring shot is the drive (52% of runs).

## WEAKNESSES / HOW TO GET HIM

- Most often out **caught** (100% of dismissals); most often to right medium (1).

v England · 3 Tests · 163 balls · 63 runs · avg 10.5

Too few balls in this series to compare a plan.

Only the balls of each attack's pace plan that differed from what the same bowlers gave that side's other RHB top-order batters. The full dismissal detail sits in the vision playlists.

Our Best Options (simulated matchups)

From the match simulation — a tool that plays each batter-v-bowler pairing out thousands of times from their full Test profiles. Low expected average = the bowler wins the matchup. "Cohort" confidence = they have not faced enough of that type for a personal read.

| Bowler           | Type       | Exp avg | Exp SR | Out in first 30 % | Stock wicket ball              | Top dismissal            | Confidence |
|------------------|------------|---------|--------|-------------------|--------------------------------|--------------------------|------------|
| Jack Edwards     | Right pace | 27.7    | 96.6   | 58.3              | good length, 4th-stump channel | Caught behind 28.1%      | Cohort     |
| Todd Murphy      | Off-spin   | 27.9    | 93.7   | 59.9              | back of a length, outside off  | LBW 17.2%                | Cohort     |
| Liam Scott       | Right pace | 35.6    | 89.0   | 49.2              | good length, 4th-stump channel | Caught behind 26.5%      | Cohort     |
| Tanveer Sangha   | Leg-spin   | 39.0    | 111.2  | 56.0              | good length, outside off       | Caught in the ring 20.6% | Cohort     |
| Nathan McSweeney | Off-spin   | 46.6    | 97.5   | 45.8              | back of a length, outside off  | Caught in the ring 17.8% | Cohort     |

Structurally, leg-spin turning the ball away from the RHB is the matchup class that persists — favour that angle when the individual reads are thin.

## Where They're Vulnerable (right-arm pace)

Per bucket: batting average, strike rate, false-shot %, dismissals per 100 balls, boundary %. Pink row = their lowest-average (softest) bucket in that dimension.

## How They Score & Get Out

### Shot types (risk)

| Shot | Avg | SR | False% | Outs/100 | Bdry% | Balls |
|------|-----|----|--------|----------|-------|-------|
|------|-----|----|--------|----------|-------|-------|

Most often out **caught** (100% of dismissals); most often to right medium (1).
