3-YR **18%**

SUMMARY

- A solid, steady batter — vulnerable to seam.
- Plan for left-arm pace: bowl **good length pitching on the stumps**.
- Most often out **caught behind** (50% of dismissals); most often to left fast (5).

COMMON THEMES

- left-hand bat, averaging 22.4 at a strike rate of 69.6.
- Carries a big share of the batting — 13.5% of team runs.
- Scores mainly through the leg side (47%).

STRENGTHS

- Main scoring shot is the work/nudge (48% of runs).
- The **cut** brings them 11% of their runs vs pace — 1.4× the typical Test batter's share. Scores unusually little off the **pull/hook** vs pace (6% of runs vs 20% typically).

WEAKNESSES / HOW TO GET HIM

- Most often out **caught behind** (50% of dismissals); most often to left fast (5).
- His **drive** is high-risk (false shot 40%, 6.2 outs/100).

v Bangladesh · 1 Test · 100 balls · 60 runs · avg 60.0
Too few balls in this series to compare a plan.

v Afghanistan · 1 Test · 8 balls · 5 runs · avg 5.0
Too few balls in this series to compare a plan.

v New Zealand · 2 Tests · 228 balls · 85 runs · avg 21.2
Too few balls in this series to compare a plan.

Only the balls of each attack's pace plan that differed from what the same bowlers gave that side's other LHB top-order batters. The full dismissal detail sits in the vision playlists.

Our Best Options (simulated matchups)

From the match simulation — a tool that plays each batter-v-bowler pairing out thousands of times from their full Test profiles. Low expected average = the bowler wins the matchup. "Cohort" confidence = they have not faced enough of that type for a personal read.

Bowler	Type	Exp avg	Exp SR	Out in first 30 %	Stock wicket ball	Top dismissal	Confidence
Xavier Bartlett	Right pace	21.2	72.7	57.1	good length, 4th-stump channel	Caught behind 26.9%	High
Josh Hazlewood	Right pace	26.6	71.6	49.2	good length, 4th-stump channel	Caught behind 27.6%	Med
Nathan Ellis	Right pace	30.9	80.1	48.1	short, 4th-stump channel	Caught behind 27.8%	High
Adam Zampa	Leg-spin	32.3	91.6	55.8	good length, outside off	LBW 21.5%	Cohort
Mitch Marsh	Right pace	33.9	86.4	48.5	good length, 4th-stump channel	Caught behind 27.1%	Med

Structurally, off-spin turning the ball away from the LHB is the matchup class that persists — favour that angle when the individual reads are thin.

Where They're Vulnerable (left-arm pace)

Per bucket: batting average, strike rate, false-shot %, dismissals per 100 balls, boundary %. Pink row = their lowest-average (softest) bucket in that dimension.

Length						
Length	Avg	SR	False%	Outs/100	Bdry%	Balls
Good length	27.0	57	23%	2.13	6%	47

Speed						
Speed	Avg	SR	False%	Outs/100	Bdry%	Balls
133–140	31.0	76	10%	2.44	12%	41

Pitching line						
Pitching line	Avg	SR	False%	Outs/100	Bdry%	Balls
on the stumps	22.8	72	28%	3.17	10%	189

Over vs round						
Over vs round	Avg	SR	False%	Outs/100	Bdry%	Balls
Over the wicket	22.1	71	27%	3.20	10%	250

How They Score & Get Out

Scores most of their runs through the leg side (47%; off 30% · leg 47% · straight 23%).

Shot types (risk) [▶ their drive](#)

Shot	Avg	SR	False%	Outs/100	Bdry%	Balls
Drive	18.7	117	40%	6.25	19%	48
Work/Nudge	79.0	95	18%	1.20	10%	83

Scoring mix vs the typical Test batter (vs pace)

The **cut** brings them 11% of their runs vs pace — 1.4× the typical Test batter's share. Scores unusually little off the **pull/hook** vs pace (6% of runs vs 20% typically).

Shot	% of their runs	Typical	Index	Pctl
Work/Nudge	39%	28%	1.4×	P90
Drive	38%	34%	1.1×	P70
Cut	11%	8%	1.4×	P76
Slog	6%	5%	1.2×	P57
Pull/Hook	6%	20%	0.3× ▼	P1
Sweep	1%	0%	3.6×	P67
Ramp/Scoop	0%	1%	0.0×	P41

Share of stroke-coded runs vs pace; index = their share ÷ cohort median (171 Test batters). Highlight = signature shot; ▼ = scores unusually little there.

Most often out **caught behind** (50% of dismissals); most often to left fast (5). [▶ watch dismissals](#)

Dismissal mode	Count	%
Caught behind	4	50%
LBW	2	25%
Caught in the field	1	12%
Bowled	1	12%

Where they score — runs by area vs left-arm pace (mirrored for a left-hander).

Suggested Fields (the stock field ± their evidenced deviations)

Each field starts from the **stock template** for that bowler type & phase (orthodox because it works), then makes at most **three** changes — each one earned by a trigger in **their** game clearing the cohort P75 bar (do they lap, cut, pull, score square, edge early?). **Change** rows are highlighted with their stat; **Stock** rows carry the orthodoxy line. The read line backtests the changes against the pure stock field. Early = first 30 balls; Set = once in. Drawn from behind the bowler (bowler bottom, striker top); off side is on the right.

Field vs left-arm pace

Early — first 30 balls · 206 balls

Fielder	Stock/Change	Why they're there
1st slip	Stock	Standard stock position.
2nd slip	Stock	Standard stock position.
3rd slip	Stock	Standard stock position.
Gully	Stock	Standard stock position.
Point	Stock	Standard stock position.
Cover	Stock	Standard stock position.
Mid-off	Stock	Standard stock position.
Mid-on	Stock	Standard stock position.
Fine leg	Stock	Standard stock position.

Pure stock field. Nothing in their game clears the deviation bar (cohort P75) against left-arm pace, so the orthodox field stands — that is the read.

Floating fielder: They score only 1% of their runs where mid-on stands — the spare run-saver to move as the game asks.

Bouncer plan

Fielder	Stock/Change	Why they're there
1st slip	Change	One slip kept for the top / outside edge.
Short leg	Change	Catcher in front of square for the fend or glove off the hip.
Gully	Change	The steer or fend that flies squarer of the wicket.
Point	Change	Ring saver for the bumper plan.
Cover	Change	Ring saver for the bumper plan.
Mid-off	Change	Ring saver for the bumper plan.
Mid-on	Change	Ring saver for the bumper plan.
Deep backward square	Change	Deep behind square for the top-edged pull.
Deep fine leg	Change	Deep behind square for the hook.

A standard bumper field — he isn't a heavy puller (P7), so this is a holding / surprise option, not a wicket-taking plan. One slip, a catcher in front of square, and the two legal leg-side riders (deep backward square + deep fine leg).
