v England · 1 Test · 46 balls · 31 runs · avg 15.5

Too few balls in this series to compare a plan.

Only the balls of each attack's pace plan that differed from what the same bowlers gave that side's other RHB top-order batters. The full dismissal detail sits in the vision playlists.

Our Best Options (simulated matchups)

From the match simulation — a tool that plays each batter-v-bowler pairing out thousands of times from their full Test profiles. Low expected average = the bowler wins the matchup. "Cohort" confidence = they have not faced enough of that type for a personal read.

Bowler	Type	Exp avg	Exp SR	Out in first 30 %	Stock wicket ball	Top dismissal	Confidence
Xavier Bartlett	Right pace	16.6	74.8	65.7	good length, 4th-stump channel	Caught behind 26.6%	Med
Josh Hazlewood	Right pace	22.4	71.8	55.4	good length, 4th-stump channel	Caught behind 26.4%	Med
Nathan Ellis	Right pace	25.3	81.8	56.4	short, 4th-stump channel	Caught behind 27.7%	Med
Mitch Marsh	Right pace	28.6	86.0	53.8	good length, 4th-stump channel	Caught behind 25.8%	Med
Cameron Green	Right pace	29.5	86.2	53.0	short, 4th-stump channel	Caught behind 28.3%	Med

Structurally, leg-spin turning the ball away from the RHB is the matchup class that persists — favour that angle when the individual reads are thin.
